

CEEPCO Contracting - Firm Offers Technical Services to Diverse Clients

Headquartered in Silver Spring, Maryland, and with offices in Miami, CEEPCO Contracting provides a host of coordinated technical services on projects required by public agencies and private organizations. A minority-owned company, CEEPCO Contracting takes pride in the diverse skills and experience of its consultants, and it is committed to fully meeting client requirements on projects of any size. The firm undertakes complex engineering, construction, and facilities maintenance projects and maintains an experienced team of specialists with relevant licenses and certifications. The technical staff includes Professional Engineers (PE), as well as environmental engineers. CEEPCO Contracting's range of competencies extend to facilities management services spanning laboratories, secured facilities, and Class A office buildings. The company emphasizes a turnkey solution that encompasses all operational needs, including electric, plumbing and custodial. This "all-inclusive" approach significantly cuts down on administrative costs, as all facilities management activities are consolidated within a single unified contract.
